

according to 1907/2006/EC, Article 31

Revision: 18.02.2011

1 Identification of the substance/preparation and of the company/undertaking

· Product details

· Trade name: B1250 BOYSEN CLEAR GLOSS LACQUER

· Application of the substance / the preparation

Boysen Clear Gloss Lacquer is a nitrocellulose, solvent-based, high gloss lacquer varnish finish that dries to a hard durable film.

Principal Uses: For interior sealed wood such as furnitures, fixtures, cabinets, doors and panels.

· Manufacturer/Supplier: Pacific Paint (Boysen) Phils., Inc. 292 D. Tuazon St., Quezon City 1115 Philippines

· Further information obtainable from: Product safety department · Information in case of emergency: Telephone Nos.: +63 2 364 3505; +63 2 365 0561 Facsimile Nos.: +63 2 367 8878; +63 2 364 0472 Email Address : inquiry@boysen.com.ph Website Address : www.boysen.com.ph

2 Hazards identification

· Hazard description:

T Toxic F Highly flammable

· Information concerning particular hazards for human and environment: The product has to be labelled due to the calculation procedure of the "General Classification guideline for preparations of the EU" in the latest valid version. R 45 May cause cancer.

- R 60
- May impair fertility.
- R 61 May cause harm to the unborn child.
- R 11 Highly flammable.

Also harmful by inhalation and in contact with skin. R 20/21

- *R* 36/37/38 Irritating to eyes, respiratory system and skin.
- Also harmful: danger of serious damage to health by prolonged exposure through inhalation. R 48/20
- R 63 Possible risk of harm to the unborn child.
- R 65 Harmful: may cause lung damage if swallowed.
- · Classification system:

The classification is according to the latest editions of the EU-lists, and extended by company and literature data.

GHS label elements

Danger

2.6/2 - Highly flammable liquid and vapour.

3.6/1B - May cause cancer.

3.7/1B - May damage fertility or the unborn child.

3.10/1 - May be fatal if swallowed and enters airways.

3.9/2 - May cause damage to organs through prolonged or repeated exposure.

(Contd. on page 2)

(Conta	l. of page 1)
Warning	
2 1/4 Hammful in contract with abin	
3.1/4 - Harmful in contact with skin.	
3.1/4 - Harmful if inhaled. 3.2/2 - Causes skin irritation.	
3.3/2A - Causes serious eye irritation.	
3.8/3 - May cause respiratory irritation.	
• Prevention:	
Obtain special instructions before use.	
Do not handle until all safety precautions have been read and understood.	
Keep away from heat/sparks/open flames/hot surfaces No smoking.	
Keep container tightly closed.	
Ground/bond container and receiving equipment.	
Use explosion-proof electrical/ventilating/lighting/equipment.	
Use only non-sparking tools.	
Take precautionary measures against static discharge.	
Do not breathe dust/fume/gas/mist/vapours/spray.	
Avoid breathing dust/fume/gas/mist/vapours/spray.	
Wash thoroughly after handling.	
Use only outdoors or in a well-ventilated area.	
Wear protective gloves/protective clothing/eye protection/face protection.	
Use personal protective equipment as required.	
· Response:	
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.	
IF ON SKIN: Wash with plenty of soap and water.	
IF ON SKIN (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin wi	th water/
shower.	
IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing.	
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present ar	<i>id easy to</i>
do. Continue rinsing.	
IF exposed or concerned: Get medical advice/attention.	
Call a POISON CENTER or doctor/physician if you feel unwell.	
Get medical advice/attention if you feel unwell.	
Specific treatment (see on this label).	
Specific measures (see on this label).	
Do NOT induce vomiting.	
If skin irritation occurs: Get medical advice/attention.	
<i>If eye irritation persists: Get medical advice/attention.</i>	
Take off contaminated clothing and wash before reuse.	
Wash contaminated clothing before reuse.	
In case of fire: Use for extinction: CO2, powder or water spray. • Storage:	
Store in a well-ventilated place. Keep container tightly closed.	
Store in a well-ventilated place. Keep cool.	
Store locked up.	
· Disposal:	
Dispose of contents/container in accordance with local/regional/national/international regulations	
	-

3 Composition/information on ingredients

· Chemical characterization

• Description: Mixture of substances listed below with nonhazardous additions.

4 First aid measures

· General information:

Symptoms of poisoning may even occur after several hours; therefore medical observation for at least 48 hours after the accident.

· After inhalation:

Supply fresh air. If required, provide artificial respiration. Keep patient warm. Consult doctor if symptoms persist.

- In case of unconsciousness place patient stably in side position for transportation.
- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- · After eye contact:
- Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.

• After swallowing: If symptoms persist consult doctor.

5 Fire-fighting measures

• Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water.

- · For safety reasons unsuitable extinguishing agents: Water with full jet
- *Protective equipment: Mouth respiratory protective device.*

6 Accidental release measures

• *Person-related safety precautions: Wear protective equipment. Keep unprotected persons away.*

(Contd. of page 3) • Measures for environmental protection: Do not allow product to reach sewage system or any water course. Inform respective authorities in case of seepage into water course or sewage system. Do not allow to enter sewers/ surface or ground water. • Measures for cleaning/collecting: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Dispose contaminated material as waste according to item 13. Ensure adequate ventilation. Do not flush with water or aqueous cleansing agents

7 Handling and storage

· Handling:

• Information for safe handling: Ensure good ventilation/exhaustion at the workplace. Open and handle receptacle with care. Prevent formation of aerosols.

• Information about fire - and explosion protection: Keep ignition sources away - Do not smoke. Protect against electrostatic charges. Keep respiratory protective device available.

· Storage:

- Requirements to be met by storerooms and receptacles: Store in a cool location.
- · Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep container tightly sealed.

Store in cool, dry conditions in well sealed receptacles.

8 Exposure controls/personal protection

• Additional information about design of technical facilities: No further data; see item 7.

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Due to missing tests no recommendation to the glove material can be given for the product/ the preparation/ the chemical mixture.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

12 Ecological information

General notes:

Water hazard class 2 (German Regulation) (Self-assessment): hazardous for water Do not allow product to reach ground water, water course or sewage system. Danger to drinking water if even small quantities leak into the ground.

13 Disposal considerations

· Product:

· Recommendation

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

· Uncleaned packaging:

• Recommendation: Disposal must be made according to official regulations.
